Full Stack Developer

- Developed advanced programming solutions in Java, Python, and C, successfully completing 3 major projects that streamlined data processing tasks, resulting in a time savings of 15 hours per week for the data analysis team.
- Designed and implemented an AI chatbot for the customer service team that automated responses to over 500 common inquiries, improving response time by 40% and enhancing overall customer satisfaction scores significantly.

WORK EXPERIENCE

Workato

Hyderabad • 07/2024 - Present

The founding team helped build some of the earliest integration platforms. Now they have reimagined Integration and Automation to enable companies to tap into the growth mindset and transform their organization with Workato.

Intern • Internship

- Learned to use automation tools to streamline sales reporting, leading to a 30% decrease in time spent on report generation, allowing for more focus on strategic sales initiatives.

CERTIFICATIONS

Data Visualization with R

02/2024 - 05/2024

Coursera

Data Analysis with Python

10/2023 - 11/2023

Coursera

PROJECTS

School Webpage

07/2024 - 07/2024

own

- Developed an Automated Library Management System utilizing Java, Python, HTML, CSS, and Figma.
- Spearheaded the development of an automated library resource management tool, improving catalog accuracy by 30% and decreasing manual entry errors, resulting in better resource allocation across a user base of 1,500+ patrons.

RFID door unlock system

03/2023 - 05/2023

Gitam

- The project uses an RFID reader, a microcontroller a relay module, and an electric lock mechanism. RFID tags are registered and stored in the microcontroller's memory.
- When a tag is scanned, the system verifies it against the stored IDs and, if valid, activates the relay to unlock the gate or door.

SKILLS

- C Language
- Communication Skills
- English
- Fast learner
- Figma
- FUSION 360
- Html
- Java
- Management Skills
- Negotiation
- Positive Attitude
- Python
- Chess
- Coaching
